

## 7-string, multiscale, baritone Africaster

Serial # 012

This chambered body baritone combines a heavily chambered body, 27.5 inch scale length at the 7th string and recommended tuning a tone below standard tuning give it a flavour very much like the finest European dark chocolate. The slightly overwound Kent Armstrong strat-style neck and tele bridge pickups allow it to twang on demand, while the ultra-dense African Blackwood bridge plate warms it up to just the right temperature for the most sumptuous of jazz occasions. Needs to be heard to be believed. To listen, go to <http://www.jgsguitars.com>
