

T3 Africaster in Ironwood

Serial # 018

This Africaster comes from a long, rich legacy of refined tone tech that has been road-tested for a good few decades. The dual-voiced Kent Armstrong P90 pickups are tapped, so just pulling up the tone knob transforms them from growling, snapping 8.5K country dawgs to better behaved, 5.6K thoroughbreds who are content to hang out with the rhythm section for 12 bars.

The Bigsby with roller bridge rounds out this versatile, understated tone machine to give just a few, sweet, irresistible tremors at the end of a phrase for those who were not paying attention. And if you're afraid of slipping out of tune, the Kluson locking tuners hold things steady.
