

T3 Africaster in red stinkwood

Serial # 026

This axe was made to work. From the versatility of the HSS Fralin pickup set and the low, fast, comfortable, action of the everlasting ironwood neck, to the impenetrable hardness of the western myall fingerboard, this guitar will take a beating without complaining. Not that it really needs a beating, though. The Fralin pickups have a fairly beefy but very sweet, single-coil voice, meaning you can forego the Pete Townshend windmill antics and concentrate on harnessing the resonance of the chambered body and the top-shelf, vintage correct electronics to make your music sound at least as good as this guitar looks and feels.

Top wood	Red Stinkwood
Body wood	Sapele Mahogany
Fingerboard	Western Myall
Neck	Iron Wood
Body Binding	Koa
Neck inlay	Custom mother of pearl
Bridge pickup	Lindy Fralin PAF humbucker
